Introducing Illustrator CS6

- Understanding Vector Graphics
- Starting Illustrator
- Dark Versus Light Interface
- Opening An Illustrator Document
- The Illustrator CS6 Workspace
- Understanding Artboards
- The Tools Panel
- Working With The Tools Panel
- Displaying Hidden Tools
- Understanding Panels
- Displaying And Hiding Panels
- Docking And Undocking Panels
- Moving And Resizing Panels
- Choosing And Saving A Workspace
- Working With The Control Panel
- Navigating With The Hand Tool
- Navigating With The Navigation Panel
- Changing Document Views
- Using The Zoom Tool
- Defining Preferences
- Closing A Document And Exiting Illustrator

Essential Techniques

- Understanding Paths And Selection Tools
- Selecting With The Selection Tool
- Selecting Multiple Objects
- Making Marquee Selections
- Selecting With The Magic Wand Tool
- Understanding Smart Guides
- Moving Objects
- Copying Objects
- Deleting Objects
- Grouping Objects
- Ungrouping Objects
- Locking And Unlocking Objects
- Selecting With The Direct Selection Tool
- The Alignment And Distribution Tools
- Aligning Objects To A Selection
- Aligning Objects To A Key Object
- Distributing Objects
- Distributing Spacing

Document Setup

- Understanding New Document Options
- Creating A Print Document
- Creating A Web Document
- Saving An Illustrator Document
- Understanding Artboard Options
- Moving And Resizing Artboards
- Creating And Deleting Artboards
- Understanding Grids, Guides And Rulers
- Displaying And Hiding Rulers

- Making Guides
- Locking, Unlocking And Clearing Guides
- Viewing And Hiding The Grid

Drawing Shapes

- Understanding The Shapes And Colour Tools
- Preparing The Workspace
- Drawing Rectangles And Squares
- Drawing Circles
- Drawing Straight Lines
- Drawing Triangles
- Drawing Rounded Rectangles
- Drawing Ellipses
- Editing Path Segments
- Using Offset Path To Copy And Resize Objects
- Drawing Stars
- Drawing Spirals
- Drawing Polygons

Colour And Stroke

- Understanding Fill And Stroke
- Understanding Colour (Part 1)
- Understanding Colour (Part 2)
- Understanding Colour Controls
- Applying Colour With The Colour Picker
- Adjusting Stroke Weight
- Creating Strokes Of Variable Widths
- Applying Colour With The Colour Panel
- Applying Colour With The Swatches Panel
- Copying Attributes With The Eyedropper Tool
- Swapping Fill And Stroke Colours
- Saving A Colour
- Applying Dashes To Strokes
- Adjusting Stroke Joins And Caps
- Understanding Stroke Effects

Reshaping Objects

- Understanding The Transform Tools
- Scaling Objects
- Rotating Objects
- Reflecting Objects
- Shearing Objects
- Changing The Perspective Of An Object
- Understanding The Distortion Tools
- Distorting Objects
- Merging Shapes

Gradients And Patterns

- Understanding Gradients And Patterns
- Applying A Linear Gradient

- Changing The Direction Of A Gradient
- Changing Colours In A Gradient
- Adding Colours To A Gradient
- Applying A Radial Gradient
- Saving A Gradient
- Applying A Gradient To A Stroke
- Applying A Pattern Swatch
- Scaling And Moving A Pattern
- Adjusting Opacity

Layering And Arranging Objects

- Understanding Layers And Arranging Objects
- Selecting Objects Via The Layers Panel
- Creating Layers And Sublayers
- Moving Objects To Different Layers
- Rearranging Layers And Sublayers
- Hiding And Viewing Layers And Sublayers
- Locking And Unlocking Layers And Sublayers

Text And Images

- Understanding Type In Illustrator
- Inserting And Formatting Point Type
- Inserting And Formatting Area Type
- Importing Text
- Threading Text
- Cutting And Pasting Text
- Formatting Text
- Creating Columns Of Text
- Formatting Paragraphs
- Wrapping Text Around An Object
- Typing On A Path
- Working With Options For Path Type
- Transforming Path Type Objects
- Converting Text Into Editable Paths
- Transforming Character Objects
- Placing And Transforming An Image

Libraries And Templates

- Understanding Libraries And Templates
- Browsing Templates In Adobe Bridge
- Creating A Document From A Template
- Browsing Symbol Libraries
- Placing A Symbol Instance
- Transforming A Symbol Instance
- Editing A Symbol Instance
- Using The Symbols Tools
- Browsing The Brush Library
- Drawing Paths With A Brush

Editing A Brush Stroke
Applying A Brush Stroke To A Path

Drawing With The Pen Tool

Understanding The Pen Tool
Drawing Straight Lines With The Pen Tool
Drawing Objects With Closed Paths
Drawing A Curve With The Pen Tool
Adjusting The Slope And Height Of A Curve
Drawing A Circle With The Pen Tool
Defining The Direction Of A Curve
Drawing Objects With Straight And Curved Paths
Converting Anchor Points

Applying Effects

Understanding Effects
Applying The Inner Glow Effect
Applying The 3D Revolve Effect
Applying The 3D Extrude Effect
Working With The Appearance Panel
Applying A Drop Shadow
Applying Gaussian Blur
Applying Warp Effects
Creating A Clipping Mask

Document Output

Understanding Save And Export Options
Understanding File Formats
Exporting An Illustrator Document
Saving For A Microsoft Office Program
Saving An Illustrator Document As A PDF File
Saving An Illustrator Document For The Web
Printing An Illustrator Document
 Concluding Remarks
